Amateur Service Rules Concerning Frequencies Authorized for Automatically Controlled Stations in Beacon Operation

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action amends the amateur service rules by relocating the frequency segments for automatically controlled beacon stations in the 2 meter and 70 centimeter bands. The rule amendment is necessary so that beacon station reception will be minimally disrupted by interference from amateur stations engaging in moonbounce and other experimental communications. The effect of the rule amendment is to make the information obtained from beacons more useful in conducting propagation experiments.

EFFECTIVE DATE: May 18, 1990.

ADDRESSES: Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Maurice J. DePont, Federal Communications Commission, Private Radio Bureau, Washington, DC 20554, (202) 632-4964.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, adopted February 26, 1990, and released March 7, 1990. The complete text of this Commission action, including the rule amendment, is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 239) 1919 M Street, NW., Washington, DC. The complete text of this Report and Order, including the rule amendment, may also be purchased from the Commission's copy contractor, International Transcription Services, (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

Summary of Report and Order

1. The amateur service rules have been amended by relocating the frequency segments for automatically controlled beacon stations in the 2 meter and 70 centimeter bands. As a result of the relocation, less disruption to beacon station reception should occur. Thus, beacon station information will be more useful in conducting propagation experiments.

2. It was suggested that the 2 meter beacon segment be relocated to 144.300-144.320 or 144.325 MHz. The Commission, however, rejected such

suggestion and relocated the 2 meter beacon segment as originally proposed at 144.275-144.300 MHz, noting that the suggested change was not significant enough to warrant deviating from the proposal.

3. The Commission also rejected a suggestion to relocate the 220.05-220.06 MHz beacon segment in the 1.25 meter band, stating that such relocation would serve no useful purpose in light of the fact that the 220-222 MHz segment is to be deleted from the amateur service when it becomes available for use by the land mobile service.

4. The amended rule is set forth at the end of this document.

5. The rule adopted herein has been analyzed with respect to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, and found to contain no new or modified form, information collection, and/or record keeping, labeling, disclosure, or record retention requirements, and will not increase or decrease burden hours imposed on the public.

6. The amended rule is issued under the authority of 47 U.S.C. 154(i) and 303(r).

2. Section 97.203(d) is revised to read as follows:

§ 97.203 Beacon station.

(d) A beacon may be automatically controlled while it is transmitting on the 28.20-28.30 MHz, 50.06-50.08 MHz, 144.275-144.300 MHz, 220.05-220.06 MHz, 222.05-222.06 MHz or 432.300-432.400 MHz segments, or on the 33 cm and shorter wavelength bands.

SUMMARY: NOAA issues this notice of final initial specifications for the 1990 fishing year for Atlantic *Loligo* and *Illex* squid and butterfish. Regulations governing these fisheries require the Secretary of Commerce (Secretary) to publish specifications for the coming fishing year. This action is intended to fulfill this requirement and promote the development of the U.S. Atlantic squid and butterfish fisheries.

EFFECTIVE DATE: January 1, 1990.

ADDRESSES: Copies of the Mid-Atlantic Fishery Management Council's Analysis and recommendations are available from John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, room 2115, Federal Building, 300 South New Street, Dover, DE 19901.

SUPPLEMENTARY INFORMATION:

Regulations implementing the Fishery Management Plan for Atlantic Mackerel, Squid, and Butterfish Fisheries (FMP), prepared by the Mid-Atlantic Fishery Management Council (Council), stipulate at 50 CFR 655.22(d) that the Secretary will publish a notice specifying the final initial annual amounts of the initial optimum yields (IOY), as well as the amounts for domestic annual harvest (DAH), domestic annual processing (DAP), joint venture processing (JVP), and total allowable levels of foreign fishing (TALFF) for the species managed under the FMP. No reserves are permitted under the FMP for any of these species.

Procedures for determining the initial annual amounts are found at §§ 655.21 and 655.22.
